

NanoMagic Polish

Foam gloss polish M

Heavily foaming innovative micro-emulsion with excellent cleaning performance with simultaneous long-lasting high-gloss protection. NanoMagic Polish is used as foam gloss polish and/or brush shampoo. Thanks to voluminous foam formation, carwash customers can experience care visibly. Premium, hydrophobic reactive and care components give paintwork a brilliant deep gloss and protect all paintwork, rubber and plastic surfaces against aggressive environmental factors over a long period. Extremely well-suited as well for care of convertible fabric tops. Drying is prepared optimally through the perfect surface finish. Surfactants in the product support the self-cleaning properties of the washing materials. Optimally suited as well for biological service water treatment plants. Contains no mineral oil hydrocarbons. VDA conform to class A.
